Board Policy Development

Formal guidelines are necessary to ensure that the school system responds to its stated mission and operates in an effective, efficient, and consistent manner. Written board policies will be developed and periodically revised. Policy shall be in the form of broad principles that define the desire and intent of the board and will be keyed to the needs of the school. They should indicate what is wanted and why, in a form which is concise but sufficiently explicit to guide administrative actions.

The basic responsibility for initiating, reviewing, and recommending new policies or policy modification shall rest with the Governance Committee or designee. However, new policies or changes in existing policy may be proposed by any board member, group or organization, staff member, student, or resident.

The Service Provider shall implement the policies of the board through the development of administrative regulations and procedures.

END OF POLICY
